Dan,
    Per our telecon of 10 Aug, I have ~~placed~~ placed the documents in one of the three categories:

A--Probably previously released in the OTS group of MKULTRA documents.
B--Unknown if released previously but no objection to release now.
C--Not previously released and not releasable now (belongs to a lettered or "deFlorez" subproject).

    I have indicated in blue pencil in the upper right-hand corner of each document that category in which the documents falls. For the "A" documents I have further indicated the numbered Subproject in which to search for previous possible releases of the document.
    For both the "A" and "B" documents I have indicated in pink highlighter how the doc should be sanitized (according to the original MKULTRA sanitizing rules). I have only bracketed Gottlieb's name pending a ruling from OGC.
    There are only 8 [____] documents. If they were released at all previously they could perhaps be found in the several folders which were not numbered subprojects. If my memory serves me correctly we started numbering these arbitrarily with number 150 through about 160.

Tom
