Feeder Data for the USAINSCOM Budget Execution Review (BER)

TO SEE DISTRIBUTION

FROM DCSRM

DATE 24 Dec 80

CMT 1

Mrs. Brower/mb/6947

1. Plans are being formulated for the conduct of a Budget Execution Review (BER) during the month of January 1981. The BER affords the commander the opportunity to realign funds with current requirements and make known future requirements for the balance of the fiscal year. The mid-year FY81 BER is oriented primarily towards correcting any funding imbalances through internal reprogramming within the command.
2. Attached at Inclosure 1 is a chart depicting actual obligations for the period 1 October - 30 November 1980 and the available balance for your activity for the period 1 December 1980 - 30 September 1981. This funding was developed from feeder data submitted by your activity for preparation of the FY81 Command Operating Budget (COB) in April 1980. Civilian pay obligations have been deleted from this chart but will be computed by this office.
3. In order to reduce your workload, only essential requirements are being requested to assist this office in preparation of the FY81 BER. These requirements consist of:
 - a. Unfinanced Requirement Schedule (see Incl 2), if additional funds over and above your approved COB submission are required.
 - b. Declaration of excess funds.
 - c. Negative replies, if there is no change in the approved COB submission.
4. Request required data be submitted to this office, ATTN: IARM-B-FM, in duplicate, not later than 16 January 1981. If assistance is required for recomputation of travel, this office will be contacted not later than 5 January 1981.
5. All addressees are to acknowledge receipt of these instructions and provide their point of contact for this submission. This can be accomplished by telephone.
6. Point of contact in this office is Phyllis E. Brower, Ext. 6947.
