PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 8716   SESSION NUMBER: 01

DATE OF SESSION: 13 Nov 87   DATE OF REPORT: 13 Nov 87

METHODOLOGY: ERV   VIEWER IDENTIFIER: 018

1. (S/NF/SK) MISSION: Determine items of significant intelligence interest stored in the cylindrically shaped building at ▇▇▇▇▇▇▇▇▇   SG1B

2. (S/NF/SK) VIEWER TASKING: Access and describe issue of intelligence interest at Coordinates 236601/968989.

3. (S/NF/SK) COMMENTS: Viewer a d interviewer agreed to objectify all indicators of Analytical Overlay (AOL) as they surfaced, and to allow viewer to cool down anew prior to reaccessing the target. This procedure appears time-consuming but profitable. Interviewer suggested 018 take whatever time needed to obtain an overhead drawing of the target area and to clearly identify the target building. This was accomplished. Next viewing session will commence from this identified point of departure.

memorandum

DATE: 13 November, 1987

REPLY TO ATTN OF: DT-S

SUBJECT: SESSION SUMMARY (C/SS)

SG1J **TO:** DT-S   (ATTN: ███████████

1. (S-SS) Statistics: Viewer: 018
                           Session date: 13 NOV 87
                           Mode used: ERV

2. (S-SS)   The impressions were:

    a. Beginning impressions were of several "peopled places".
All people in these beginning places were dark-skinned. There
were an abundance of people here with large, distended stomachs
(AOL: like pregnant women or children with malnutrition).

    b. There was a second set of impressions of a rolling-hills
type of land near a mountainous area, high enough for the
mountains to reach the clouds.

    c. A third approach to the site included a "leaning"
structure which appeared to be some kind of machine (AOL: rocket
launcher or gun).

    d. A fourth approach to the site led to a structure. The
very large area inside the structure was bi-leveled with white
partitions. There was also a small room which overlooked the
larger area.

    e. Tasking to perceive the area from above produced the
diagram shown in Drawing #1. It is an orderly complex of
structures. The structures are long, length approximately 3
times width. Some of the structures appear to be very dark
colored, as seen from above, while others are lighter. There is
a smaller, square structure nearby, with an open area between
which appears to be paved. Near the small square structure there
seems to be a strong variance in the level of the land.

DRAWING #1

TASK: DESCRIBE + DRAW AREA FROM A VANTAGE
POINT ABOVE IT.

PERCEPTION WAS OF A COMPLEX OF
LONG STRUCTURES, W/ A SQUARE STRUCTURE
OFF TO ONE SIDE.

SOME OF THE LONG STRUCTURES APPEARED
TO BE DARK COLORED, ALMOST BLACK.
(SHADED WITH PENCIL, ABOVE)

THERE WAS THE PERCEPTION THAT THE AREA
(IRREGULAR LINE NEAR SQUARE STRUCTURE) NEAR
THE SQUARE STRUCTURE WAS RECESSED BELOW
THE LEVEL OF THE REST.
