FROM: DIA (DT-S)

26 MAR 90

TO: DCSINT (PO)

SUBJECT: Interim Report - 9007-I (U)

1. (S/STD) This report provides an interim response to the effort made to determine plans and intentions resulting from a meeting held in Hong Kong and attended by [REDACTED]

SG1A

SG1A

2. (S/STD) Remote Viewer 032 described the meeting as a "strategy session" identified under the expression [REDACTED]

SG1A

SG1A

[REDACTED] predicates the projected use of Greenland, Canada, and Alaska as major points of entry for the routing of contraband in the form of illegal drugs. Two distinct groups of personnel attended the meeting(s). The first predominantly wore suits; the second group wore "kofias" (arabian head wrappings) and hats with tassels (fez?). Phonetic expressions associated with the first group surfaced as, "Mendez, Scobar, Tielle." Phonetics associated with the second group surfaced as, "Jawal, Tat, Tet, Moal, Misir." Apparent code names associated with the projected activities surfaced as, "Winchester, Ice Man, Out Rigger(sic) and Rigger." The assassination of a young man took place before the meeting; somehow, it was related to the meeting and intended to be a "lessons learned" action. Assassinations of prominent American officials were also considered. Copies of 032's two summaries are at TAB A.

2. (S/STD) Viewer 095 attempted to access the three main figures identified in the background data in an effort to determine plans and intentions.

SG1A

a. (S/STD) [REDACTED] appears responsible for the implementation of some sort of human recruitment program to insure that key positions would be filled by personnel assuring the flow of the contraband. Coercion and bribery will be used extensively towards this goal.

SG1A

b. (S/STD) [REDACTED] became responsible for the illegal transport and delivery of non-US manufactured automatic weapons by surface vessel.

SG1A

c. (S/STD) [REDACTED] role is directed towards the manipulation (laundering) of money and "stock prices." One of the three persons attending the meeting became responsible to insure the timely elimination/assassination of a "government official." The nationality of the government official was not further identified. Copies of 095's three summaries are at TAB B.

## SUMMARY OF INFORMATION

The meeting site and it's immediate surroundings are Middle Eastern in appearance. There are stone buildings and sparsely vegetated hillsides. The streets are narrow and several building are elevated well above the others utilizing existing terrain.

Inside the structure where the meeting is taking place are very high walls which are cold, and are constructed of natural materials.

The personnel at the meeting are dressed in robes and what look like sandals, the subject matter of the meeting is one of a political/ religious nature. They are trying to decide the fate of something or someone. There is much heated debate and serious warnings are issued.

The information is to be applied in the near future (relative to the site) and individuals have been dispatched to pass information and carry out certain orders and directives. This information will result in the death of numerous individuals and will create a very serious impact on the world as we know it.

#### SUMMARY OF INFORMATION

The meeting site is in an office. The walls of the office are lined with bookcases and there is a table at the center of my view. The table is constructed of a dark wood and all of the principals of the meeting are seated around it. The principals at the meeting are all men. One of the men seated at the table is wearing a round hat with a tassel (like a Turkish hat). The other men seated across from him are wearing suits. The other men seated on his right are wearing loose fitting clothing and what appear to be "Kofias".

I cannot determine if there is any one person in charge -- all of them appear to have a significant power base. There are a total of eight to twelve people in the meeting.

Phonetics of names for people wearing the suits are (Mendez, Scobar, Tielle) and the phonetics of people seated across from them are (Jawal, Tat or Tet, Moal and finally Muir).

The meeting is a business meeting, the topic of discussion is one relating to the exploration of new market frontiers, new movement routes and what to do about informants or traitors to the cause. Air and overland movements are both topics of discussion.

This meeting looks like a tremendous strategy session. There are maps on the wall that have arrows drawn from the north down into the south. There are things that look like direction of attack arrows indicating potential routes and support personnel in the areas and along the way. The operation is labeled [REDACTED] and uses Greenland, Alaska, Canada as major routes or bases.

SG1A

There are vast intel nets being developed at great <sup>e</sup>expanse. People who stand in the way or who are perceived as threats will be eliminated. The cost of elimination is inexpensive as compared to the enormous losses that can be felt. A hit list is being developed to create a shock effect -- spread terror and intimidate. Names on the list include: Jimmy Carter, Ronald Regan, Noreaga, Dan Quale, George Bush and Jessy Jackson.

Code names associated with operation [REDACTED] are: Winchester, Ice Man, Out Rigger or just Rigger. Numerous deaths have occurred as a result of this meeting -- and many more will occur as the plans unfold.

SG1A

There was a young man who was assassinated prior to this meeting as sort of a display of reality and sincerity. His body was exposed, he died violently and suddenly to make a statement.

S: 01

SUMMARY OF INFORMATION

The site is a room, decorated sparsely, with modern, simple, clean lines: giving a tasteful and expensive appearance. There is a table which seats 8 but not all chairs appear to be occupied. At the head of the table is a husky man in a well-tailored three piece suit. He has black, short straight hair; thick black eyebrows and a wide, flattish nose. His fingers are squarish and well manicured. The meeting involves decision-making/ planning of steps to take due to a major change. The major change involves "newness" something 'like' a new regime, newcomers, new players.
