SUMMARY OF INFORMATION

During this session, I could see the young American man
waiting in the shed for the packages. The shed was square and
was a small structure. The shed was in a very isolated area.
There were some tall trees surrounding the shed.

When the man receives the packages, he then flies them out
of this location. He flies a small aircraft that looks like a
crop duster. He flies alone.

When the man is not at this isolated location waiting for
the packages, he is in a city or large town. He may live or stay
at an apartment that sits near a sidewalk. There are other
apartments or houses on the same street.

I then felt that I was at another location. At this
location, I could see men throwing the packages on top of dirty,
old vehicles. There was a military man here who was being driven
away in a jeep. He was of high rank and he tipped his hat to the
workers as he was driving off. He wore a light tan uniform.
Even though he was of high rank, he seemed to be a rather young
soldier.
