SG1A

1. (S/SK) MISSION: To describe the target sites [redacted] in Stage 3 terminology, with special attention to recording of AOLs.

2. (S/SK) VIEWER TASKING: Frontloading of "You will have a standard target for this session, but the object of the session is to declare as many AOL's, AI's, and otherwise edited-out thoughts as possible. The prevention of editing is the entire goal of this session." and encrypted coordinates for the target.

3. (S/SK) COMMENTS: No Physical Inclemencies. Stage 3 training is finished, and 052 is now waiting for Stage 4 training to begin, providing the opportunity to practice "non-scheduled" things. From the beginning of Stage 1 training, 052 has had a lot of problems with "editing" (a type of AOL which decides that some perception is AOL, or otherwise non-important, so discards it without reporting). This session was designed specifically to stress the need for the prevention of editing. Pre- and post-session discussion centered around the need to overcome editing.

4. (S/SK) EVALUATION: 3

5. (S/SK) SEARCH EVALUATION: N/A
