WORKING PAPER

Target #: D005
Date: 26 SEP 90
Time: 1330-1340
Viewer: 052
Session: 01

METHOD USED:

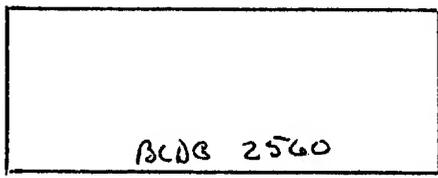

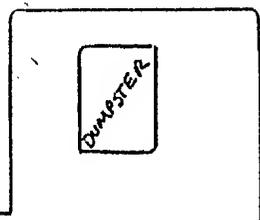

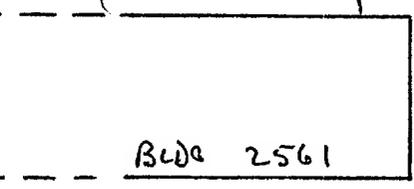

I started at my desk by using the pendulum to find the right quadrant. I then went outside to the starting tree and did feel drawn to that particular quadrant. I walked around the area and felt that the target was somewhere in the taller grass. I couldn't find the exact location. I continued to walk around until I was in front of a tree, next to the taller grass. I placed my "knife" in that location, see diagram.
