...magnifying Oliver  
Wendell Holmes's more modest as-  
essment that its State House was  
"the hub of the solar system." Origin-  
ally a scrawny neck of land poking  
seaward, Boston fleshed out during  
the 19th century as developers filled  
in the marshy acreage of Back Bay  
and the South End. Foundations for  
the city's schools, hospitals, and great  
financial institutions were laid then  
or strengthened.

Annexing communities like East  
and South Boston, Charlestown and  
Roxbury, Boston left independent-  
minded neighbors such as Cambridge  
and Brookline to themselves. Today  
an encircling ring of a hundred cities  
and towns dwarfs Boston proper,  
whose 660,000 people are only part  
of the more than three million inhab-  
itants in the metropolitan area.
