PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: S4 TRNG 104	SESSION NUMBER: 1
DATE OF SESSION: 881011	DATE OF REPORT: 881012
START: 1015	END: 1120
METHODOLOGY: CRV	VIEWER IDENTIFIER: 032

1. (S/NF/SK) MISSION: Access and describe in a stage one sense training target # 104, the United Nations.
2. (S/NF/SK) VIEWER TASKING: Encrypted coordinates 404458/735806.
3. (S/NF/SK) Excellent first stage four session. O32 even obtained EIs and Is (diplomatic, political) even though this was neither intended or expected to occur in an early stage 4 session. Also unexpected was that O32 needed to use stage 4 1/2. This was introduced to him with the understanding that he should use it only when absolutely necessary, particularly in training. He understands that an over-reliance on this tool during training will prevent him from mastering the stage 4 matrix. The only problem O32 experienced during the session was in maintaining the vertical structure on the page; practice will cure this. The session ended with a search/location exercise: O32 was told to move to a location 10 miles above the site and asked to identify where on the globe the site was he stated in the northern hemisphere in the western hemisphere. When asked what continent he said he wasn't high enough to tell so he was instructed to move to a location 15 miles above the site. He stated that the site was in North America. Lastly, O32 was instructed to attempt a stage 7 (see page 11). Because of the rigidity of his facial posture he could make only vowel sounds. This will be worked on in the future.
4. EVALUATION: 3
