Site is an ^{and} ~~struggled~~, hilly area with ruins, tumbled down stone work, a high, long, wide landscape, and an area where indigenous, herder, pastoral, primitive people in dark robes with animal hide in permanent stone dwellings set into the hill & less permanent, tent-like dwellings. Among them are more modern ~~type~~ type people with a sense of head-to-come ^{about come} ~~type~~, who appear to be escorted by soldier/police type people. Ruins are ancient, ~~but~~ built by some other people preceding present occupants. Area has been the site of much conflict in the past history. Somewhere within 10 kilometers is a ~~very~~ different, built-up area ~~and~~ serviced by ~~air~~ ^{air} transport. Transportation is by foot, ~~and~~ ^{animal} or "land rover" type vehicle, + ~~is~~ is relatively isolated & difficult to reach.
