

SESSION SUMMARY

SESSION: ████████ 011

METHODOLOGY: CRV/ERV (Solo)

29 JUL 88

1215-1300

OBJECTIVE: DETERMINE TRENDS OF IRANIAN BACKED ACTS OF TERRORISM DURING 31 JULY 1988 THRU 8 AUGUST 1988.

RESULTS: DURING THIS TIME FRAME MOST OF IRAN'S ACTIVITY RELATING TO RETALIATION AGAINST THE UNITED STATES CENTERS AROUND THE GULF AREA. THERE EXISTS THE PROBABILITY THAT IRAN WILL ATTEMPT TO SINK AN AMERICAN WARSHIP USING AN ANTI-SHIPING MISSILE. AM UNABLE TO DETERMINE WHETHER THE MISSILE WILL BE SURFACE-TO-SHIP, OR AIR-TO-SHIP. THERE IS A GOOD POSSIBILITY THAT THIS MISSILE WILL MISS ITS INTENDED TARGET AND STRIKE A TANKER.

ON OR ABOUT THE 2nd OF AUGUST THERE MAY BE AN INCREASED DANGER TO AMERICAN INSTALLATIONS AND U.S. FORCES PERSONNEL STATIONED NEAR THE WIESBADEN/FRANKFURT/MAINZ AREAS, AND POSSIBLY MUNICH, IN GERMANY. INCREASED CAUTION AND SECURITY ARE ADVISABLE.
