SECTION II

This section deals exclusively with the accuracy of the information provided, not its usefulness. Responses are scaled from 0-3 utilizing the following explanatory criteria. If a source has not addressed a particular item then select UNKNOWN. If a source describes an item which cannot be verified then select CANNOT BE DETERMINED.

> 0 - Little or no correspondence with known or suspected components of the target site.
>
> 1 - Evidence that the proper target site is being described, however the information contains a mixture of correct and incorrect elements.
>
> 2 - Good site correspondence with several items recognizable or confirmatory in nature but some incorrect or irrelevant information is reported.
>
> 3 - Good correspondence with the target with unambiguous and unique information and relatively little known incorrect information.

		0-3	UNKNOWN	CANNOT BE DETERMINED
IIa -	Geographic locale description, i.e., terrain, bodies of water, mountains, etc.	☐	☐	☐
IIb -	Large scale manmade objects, i.e.,cities, rail yards, silos, docks, etc.	☐	☐	☐
IIc -	Small scale manmade structures, i.e., antennae, computers, vehicles, missiles, small buildings, etc.	☐	☐	☐
IId.-	General target functions, i.e., research, production, training, storage, troop billets, etc.	☐	☐	☐

(classification)

0- Little or no correspondence with known or suspected components of the target site.

1 - Evidence that the proper target site is being described, however the information contains a mixture of correct and incorrect elements.

2 - Good site correspondence with several items recognizable or confirmatory in nature but some incorrect or irrelevant information is reported.

3 - Good correspondence with the target with unambiguous and unique information and relatively little known incorrect information.

	0-3	UNKNOWN	CANNOT BE DETERMINED
IIe - Specific target functions, i.e., nuclear testing, CBR storage/research, missile testing etc.	☐	☐	☐
IIf - Personalities at *See Below* site, i.e., descriptions, activities, responsibilities, political proclivity, support for government.	☐	☐	☐
IIg - Data of predictive *See Below* importance, i.e., plans, preparations hostile intentions.	☐	☐	☐

A narrative elaboration is requested:

IIf Correlation of information with data provided by Source 021 is indicative of correspondence to the target.

IIg. Accessibility to target personalities appears readily feasible.

Future exercises involving data of a predictive nature in the area of target personalities, will require the levy of refined intelligence questions tasked against specific (past/future) time windows

(Use a continuation sheet if necessary.)

SECTION III

Please check which best describes the intelligence value of the information provided.

☑ VERY USEFUL   ☐ USEFUL   ☐ MARGINAL VALUE   ☐ NO VALUE   ☐ CANNOT BE DETERMINED

Narrative comment required. Explain how information provided will be used (i.e. confirm other intelligence sources, targeting, etc.). If information is of marginal or no value, explain why.

Current results of Source 101 and Source 021 efforts against personalities of foreign intelligence interest ~~confirm~~ past findings that remote viewing can be used effectively against target personalities of foreign intelligence interest.

SECTION IV

This organization solicits your frank and informal comment on any aspect of this project which could better aid us in providing high quality intelligence to the consumer. Please feel free to use the space below or additional sheets of paper as necessary to convey your thoughts.

- Normally, biographic data reported by Intelligence Information Report warrants no specific evaluation; such data is presumed to be of value.

- Foreign intelligence reflecting plans and intentions of a foreign leadership is normally considered of "high value" at a minimum.

- A suitably refined, intelligence question related to "Plans & Intentions" could be included as part of the EEI for this type of target.
