TEXT: EXTRACT. THIS ARTICLE WAS PUBLISHED IN THE MARCH 20, 1990 ISSUE OF THE DAILY SNAP.

THE BUREAUCRATIC SYSTEM OF SCIENCE IS THE MOST CONSERVATIVE, AND INNOVATIONS ADVANCE IN THE FACE OF UNUSUAL RESISTANCE. AND YET A TREMENDOUS AMOUNT OF EXPERIENCE IN INTERACTION WITH THE SPACE AND PLANETARY ENVIRONMENT HAS BEEN AMASSED IN THE WORLD OF LIVING MATTER AND THE HISTORY OF MANKIND.

LEARNING FROM THE PAST EXPERIENCE OF MANKIND IS ONE PATH TO ACCOMPLISHING A NEW SCIENTIFIC BREAKTHROUGH. THIS IS WHY BOTH SOCIAL AND SPIRITUAL EXPERIENCE AND THE SPHERE OF UNACCOUNTABLE PHENOMENA, EXTRASENSORY CAPABILITIES, ASTROLOGY, GEOPATHOGENIC ZONES AND, OF COURSE, OBSERVATIONS OF UNIDENTIFIED OBJECTS ARE ATTRACTING MORE AND MORE ATTENTION FROM SCIENCE. THE FIRST ALL UNION CONFERENCE BIOINFORMENERGO-89 TOOK PLACE IN NOVEMBER OF 1989. PREPARATIONS HAVE BEGUN FOR AN INTERNATIONAL CONFERENCE, BIOINFORMENERGO-91, IN THE USSR. AN INTERNATIONAL EXPERIMENTAL PROJECT FOR RESEARCH OF THE NATURE LONG DISTANCE COMMUNICATIONS, WITH THE SIMULTANEOUS PARTICIPATION OF OPERATORS OF 12 COUNTRIES, WILL BE PREPARED IN THE SPRING OF THIS YEAR. THIS EXPERIMENT IS BEING ORGANIZED ON THE BASIS OF A SOVIET, AMERICAN AGREEMENT WITH THE INSTITUTE OF FRONTAL PROBLEMS (THE UNIVERSITY IN TEMILE (SIC), USA THE INSTITUTE OF CLINICAL AND EXPERIMENTAL MEDICINE OF THE USSR ACADEMY OF SCIENCES, SIBERIAN BRANCH, NOVOSIBIRSK). THE SCIENTIFIC COUNCIL OF THE POLYAREKS FIRM IN SVERDLOVSK HAS DECIDED TO INCLUDE A PROGRAM ON LONG DISTANCE COMMUNICATIONS IN PLANS FOR ORGANIZING AN INTERNATIONAL EXPEDITION OVER MIGRATION ROUTES OF ANCIENT MAN (ASIA, NORTH, AMERICA).
