SEC. 1304. PROJECTS OF NATIONAL AND REGIONAL SIGNIFICANCE.

(a) FINDINGS.—Congress finds the following:

(1) Under current law, surface transportation programs rely primarily on formula capital apportionments to States.

(2) Despite the significant increase for surface transportation program funding in the Transportation Equity Act of the 21st Century, current levels of investment are insufficient to fund critical high-cost transportation infrastructure facilities that address critical national economic and transportation needs.

(3) Critical high-cost transportation infrastructure facilities often include multiple levels of government, agencies, modes of transportation, and trans-

portation goals and planning processes that are not easily addressed or funded within existing surface transportation program categories.

(4) Projects of national and regional significance have national and regional benefits, including improving economic productivity by facilitating international trade, relieving congestion, and improving transportation safety by facilitating passenger and freight movement.

(5) The benefits of such projects described in paragraph (4) accrue to local areas, States, and the Nation as a result of the effect such projects have on the national transportation system.

(6) A program dedicated to constructing projects of national and regional significance is necessary to improve the safe, secure, and efficient movement of people and goods throughout the United States and improve the health and welfare of the national economy.

(b) ESTABLISHMENT OF PROGRAM.—The Secretary shall establish a program to provide grants to qualified entities for projects of national and regional significance.

(c) DEFINITIONS.—

(1) ELIGIBLE PROJECT COSTS.—The term ''eligible project costs'' means the costs of—

(A) development phase activities, including planning, feasibility analysis, revenue forecasting, environmental review, preliminary engineering and design work, and other preconstruction activities; and

(B) construction, reconstruction, rehabilitation, and acquisition of real property (including land related to the project and improvements to land), environmental mitigation, construction contingencies, acquisition of equipment, and operational improvements.

(2) ELIGIBLE PROJECT.—The term ''eligible project'' means any surface transportation project eligible for Federal assistance under title 23, United States Code, including freight railroad projects and activities eligible under such title.

(3) QUALIFIED ENTITY.—The term ''qualified entity'' means a State as defined in section 101(a) of title 23, United States Code.

(d) ELIGIBILITY.—To be eligible for assistance under this section, a project shall have eligible project costs that are reasonably anticipated to equal or exceed the lesser of—

(1) $500,000,000; or

(2) 75 percent of the amount of Federal highway assistance funds apportioned for the most recently completed fiscal year to the State in which the project is located.

(e) APPLICATIONS.—Each qualified entity seeking to receive a grant under this section for an eligible project shall submit to the Secretary an application in such form and in accordance with such requirements as the Secretary shall establish.

(f) COMPETITIVE GRANT SELECTION AND CRITERIA FOR GRANTS.—

(1) IN GENERAL.—The Secretary shall—

(A) establish criteria for selecting among projects that meet the eligibility criteria specified in subsection (d);

(B) conduct a national solicitation for applications; and

(C) award grants on a competitive basis.

(2) CRITERIA FOR GRANTS.—The Secretary may approve a grant under this section for a project only if the Secretary determines that the project—

(A) is based on the results of preliminary engineering;

(B) is justified based on the project's ability—

(i) to generate national economic benefits, including creating jobs, expanding business opportunities, and impacting the gross domestic product;

(ii) to reduce congestion, including impacts in the State, region, and Nation;

(iii) to improve transportation safety, including reducing transportation accidents, injuries, and fatalities;

(iv) to otherwise enhance the national transportation system; and

(v) to garner support for non-Federal financial commitments and provide evidence of stable and dependable financing sources to construct, maintain, and operate the infrastructure facility; and

(C) is supported by an acceptable degree of non-Federal financial commitments, including evidence of stable and dependable financing sources to construct, maintain, and operate the infrastructure facility.

(3) SELECTION CONSIDERATIONS.—In selecting a project under this section, the Secretary shall consider the extent to which the project—

(A) leverages Federal investment by encouraging non-Federal contributions to the project, including contributions from public-private partnerships;

(B) uses new technologies, including intelligent transportation systems, that enhance the efficiency of the project.

(C) helps maintain or protect the environment.

(4) PRELIMINARY ENGINEERING.—In evaluating a project under paragraph (2)(A), the Secretary shall analyze and consider the results of preliminary engineering for the project.

(5) NON-FEDERAL FINANCIAL COMMITMENT.—

(A) EVALUATION OF PROJECT.—In evaluating a project under paragraph (2)(C), the Secretary shall require that—

(i) the proposed project plan provides for the availability of contingency amounts that the Secretary determines to be reasonable to cover unanticipated cost increases; and

(ii) each proposed non-Federal source of capital and operating financing is stable,

reliable, and available within the proposed project timetable.

(B) CONSIDERATIONS.—In assessing the stability, reliability, and availability of proposed sources of non-Federal financing under subparagraph (A), the Secretary shall consider—

(i) existing financial commitments;

(ii) the degree to which financing sources are dedicated to the purposes proposed;

(iii) any debt obligation that exists or is proposed by the recipient for the proposed project; and

(iv) the extent to which the project has a non-Federal financial commitment that exceeds the required non-Federal share of the cost of the project.

(6) REGULATIONS.—Not later than 120 days after the date of enactment of this Act, the Secretary shall issue regulations on the manner in which the Secretary will evaluate and rate the projects based on the results of preliminary engineering, project justification, and the degree of non-Federal financial commitment, as required under this subsection.

(7) PROJECT EVALUATION AND RATING.—A proposed project may advance from preliminary engineering to final design and construction only if the Secretary finds that the project meets the requirements of this subsection and there is a reasonable likelihood that the project will continue to meet such requirements. In making such findings, the Secretary shall evaluate and rate the project as ''highly recommended'', ''recommended'', or ''not recommended'' based on the results of preliminary engineering, the project justification criteria, and the degree of non-Federal financial commitment, as required under this subsection. In rating the projects, the Secretary shall provide, in addition to the overall project rating, individual ratings for each of the criteria established under the regulations issued under paragraph (6).

(g) LETTERS OF INTENT AND FULL FUNDING GRANT AGREEMENTS.—

(1) LETTER OF INTENT.—

(A) IN GENERAL.—The Secretary may issue a letter of intent to an applicant announcing an intention to obligate, for a project under this section, an amount from future available budget authority specified in law that is not

more than the amount stipulated as the financial participation of the Secretary in the project.

(B) NOTIFICATION.—At least 60 days before issuing a letter under subparagraph (A) or entering into a full funding grant agreement, the Secretary shall notify in writing the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate of the proposed letter or agreement. The Secretary shall include with the notification a copy of the proposed letter or agreement as well as the evaluations and ratings for the project.

(C) NOT AN OBLIGATION.—The issuance of a letter is deemed not to be an obligation under sections 1108(c) and (d), 1501, and 1502(a) of title 31, United States Code, or an administrative commitment.

(D) OBLIGATION OR COMMITMENT.—An obligation or administrative commitment may be made only when contract authority is allocated to a project.

(B) TERMS.—If the Secretary makes a full funding grant agreement with an applicant, the agreement shall—

(i) establish the terms of participation by the United States Government in a project under this section;

(ii) establish the maximum amount of Government financial assistance for the project;

(iii) cover the period of time for completing the project, including a period extending beyond the period of an authorization; and

(iv) make timely and efficient management of the project easier according to the laws of the United States.

(C) AGREEMENT.—An agreement under this paragraph obligates an amount of available budget authority specified in law and may in-

clude a commitment, contingent on amounts to be specified in law in advance for commitments under this paragraph, to obligate an additional amount from future available budget authority specified in law. The agreement shall state that the contingent commitment is not an obligation of the Government. Interest and other financing costs of efficiently carrying out a part of the project within a reasonable time are a cost of carrying out the project under a full funding grant agreement, except that eligible costs may not be more than the cost of the most favorable financing terms reasonably available for the project at the time of borrowing. The applicant shall certify, in a way satisfactory to the Secretary, that the applicant has shown reasonable diligence in seeking the most favorable financing terms.

(3) AMOUNTS.—The total estimated amount of future obligations of the Government and contingent commitments to incur obligations covered by all outstanding letters of intent and full funding grant agreements may be not more than the greater of the amount authorized to carry out this section or an amount equivalent to the last 2 fiscal years of fund-

ing authorized to carry out this section less an amount the Secretary reasonably estimates is necessary for grants under this section not covered by a letter. The total amount covered by new letters and contingent commitments included in full funding grant agreements may be not more than a limitation specified in law.

(h) GRANT REQUIREMENTS.—

(1) IN GENERAL.—A grant for a project under this section shall be subject to all of the requirements of title 23, United States Code, and chapter 52 of title 49, United States Code.

(i) GOVERNMENT'S SHARE OF PROJECT COST.—Based on engineering studies, studies of economic feasibility, and information on the expected use of equipment or facilities, the Secretary shall estimate the cost of a project receiving assistance under this section. A grant for

the project is for 80 percent of the project cost, unless the grant recipient requests a lower grant percentage. A refund or reduction of the remainder may be made only if a refund of a proportional amount of the grant of the Government is made at the same time.

(j) FISCAL CAPACITY CONSIDERATIONS.—If the Secretary gives priority consideration to financing projects that include more than the non-Government share required under subsection (i) the Secretary shall give equal consideration to differences in the fiscal capacity of State and local governments.

(k) REPORTS.—

(1) ANNUAL REPORT.—Not later than the first Monday in February of each year, the Secretary shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate a report that includes a proposal on the allocation of amounts to be made available to finance grants under this section.

(2) RECOMMENDATIONS ON FUNDING.—The annual report under this paragraph shall include evaluations and ratings, as required under subsection (f). The report shall also include recommendations of projects for funding based on the

evaluations and ratings and on existing commitments and anticipated funding levels for the next 3 fiscal years and for the next 10 fiscal years based on information currently available to the Secretary.

(l) APPLICABILITY OF TITLE 23.—Funds made available to carry out this section shall be available for obligation in the same manner as if such funds were apportioned under chapter 1 of title 23, United States Code; except that such funds shall not be transferable and shall remain available until expended and the Federal share of the cost of a project under this section shall be as provided in this section.

SEC. 1836. TRANSPORTATION AND LOCAL WORKFORCE INVESTMENT.

(a) FINDINGS.—Congress finds the following:

(1) Federal-aid highway programs provide State and local governments and other recipients substantial funds for projects that produce significant employment and job-training opportunities.

(2) Every $1,000,000,000 in Federal infrastructure investment creates an estimated 47,500 jobs.

(3) Jobs in transportation construction, including apprenticeship positions, typically pay more than twice the minimum wage, and include health and other benefits.

(4) Transportation projects provide the impetus for job training and employment opportunities for low income individuals residing in the area in which a transportation project is planned.

(5) Transportation projects can offer young people, particularly those who are economically disadvantaged, the opportunity to gain productive employment.

(6) The Alameda Corridor, a $2,400,000,000 transportation project, is an example of a transportation project that included a local hiring provision resulting in a full 30 percent of the project jobs being filled by locally hired and trained men and women.

(b) SENSE OF CONGRESS.—It is the sense of Congress that Federal transportation projects should facilitate and encourage the collaboration between interested persons, including State, Federal, and local governments,

community colleges, apprentice programs, local high schools, and other community based organizations that have an interest in improving the job skills of low-income individuals, to help leverage scarce training and community resources and to help ensure local participation in the building of transportation projects.

''(1) FULL FUNDING GRANT AGREEMENT.—A major new fixed guideway capital project financed under this subsection shall be carried out through a full funding grant agreement. The Secretary shall enter into a full funding grant agreement based on the evaluations and ratings required under this subsection. The Secretary shall not enter into a full funding grant agreement for a project unless that

project is authorized for final design and construction.

''(2) APPROVAL OF GRANTS.—The Secretary may approve a grant under this section for a major new fixed guideway capital project only if the Secretary, based upon evaluations and considerations set forth in paragraph (3), determines that the proposal is—

''(A) based on the results of an alternatives analysis and preliminary engineering;

''(B) justified based on a comprehensive review of its mobility improvements, environmental benefits, cost effectiveness, operating efficiencies, and transit supportive policies, and existing land use; and

''(C) supported by an acceptable degree of local financial commitment (including evidence of stable and dependable financing sources) to construct, maintain, and operate the system or extension.

''(3) CONSIDERATIONS.—

''(A) RESULTS OF ALTERNATIVES ANALYSIS AND PRELIMINARY ENGINEERING.—In evaluating a proposed project for purposes of making the finding required by paragraph

(2)(A), the Secretary shall analyze and consider the results of the alternatives analysis and preliminary engineering for the project.

''(B) PROJECT JUSTIFICATION.—In evaluating a proposed project for purposes of making the finding required by paragraph (2)(B), the Secretary shall—

''(i) consider the direct and indirect costs of relevant alternatives;

''(ii) consider factors such as congestion relief, improved mobility, air pollution, noise pollution, energy consumption, and all associated ancillary and mitigation costs necessary to carry out each alternative analyzed and recognize reductions in local infrastructure costs achieved through compact land use development;

''(iii) identify and consider public transportation supportive existing land use policies and future patterns and the cost of suburban sprawl;

''(iv) consider the degree to which the project increases the mobility of the public transportation dependent population or promotes economic development;

''(v) consider population density and current transit ridership in the corridor;

''(vi) consider the technical capability of the grant recipient to construct the project;

''(vii) adjust the project justification to reflect differences in local land, construction, and operating costs; and

''(viii) consider other factors that the Secretary determines appropriate to carry out this chapter.

''(C) LOCAL FINANCIAL COMMITMENT.—In evaluating a proposed project under paragraph (2)(C), the Secretary shall require that—

''(i) the proposed project plan provides for the availability of contingency amounts that the Secretary determines to be reasonable to cover unanticipated cost increases;

''(ii) each proposed local source of capital and operating financing is stable, reliable, and available within the proposed project timetable; and

''(iii) local resources are available to operate the overall proposed public trans-

portation system (including essential feeder bus and other services necessary to achieve the projected ridership levels) without requiring a reduction in existing public transportation services to operate the proposed project.

''(D) ASSESSMENT OF LOCAL FINANCING.—In assessing the stability, reliability, and availability of proposed sources of local financing under paragraph (2)(C), the Secretary shall consider—

''(i) existing grant commitments;

''(ii) the degree to which financing sources are dedicated to the purposes proposed;

''(iii) any debt obligation that exists or is proposed by the recipient for the proposed project or other public transportation purpose; and

''(iv) the extent to which the project has a local financial commitment that exceeds the required non-Federal share of the cost of the project.

''(4) EVALUATION AND RATING OF PROJECTS.—A proposed project under this sub-

section may advance from alternatives analysis to preliminary engineering, and may advance from preliminary engineering to final design and construction, only if the Secretary finds that the project meets the requirements of this section and there is a reasonable likelihood that the project will continue to meet such requirements. In making the findings, the Secretary shall evaluate and rate the project as 'highly recommended', 'recommended', or 'not recommended' based on the results of alternatives analysis, the project justification criteria, and the degree of local financial commitment, as required under this subsection. In rating the projects, the Secretary shall provide, in addition to the overall project rating, individual ratings for each of the criteria established by regulation.

''(5) MAJOR DEFINED.—In this section, the term 'major', as used with respect to a new fixed guideway capital project, means the Federal assistance provided or to be provided under this section for the project is $75,000,000 or more.

''(d) CAPITAL INVESTMENT GRANTS LESS THAN $75,000,000.—

''(1) IN GENERAL.—Subject to the provisions of this subsection, if the Federal assistance provided or

to be provided under this section with respect to a new fixed guideway capital project is less than $75,000,000, and not less than $25,000,000, and the total estimated net capital cost of the project is less than $200,000,000, the project shall be subject to the requirements in this subsection. A new fixed guideway capital project is not subject to the requirements of this subsection if the assistance provided under this section with respect to the project is less than $25,000,000.

''(2) SELECTION CRITERIA.—The Secretary may provide Federal assistance under this subsection with respect to a proposed project only if the Secretary finds that the project is—

''(A) based on the results of planning and alternatives analysis;

''(B) justified based on a review of its public transportation supportive land use policies, cost effectiveness, and effect on local economic development; and

''(C) supported by an acceptable degree of local financial commitment.

''(3) PLANNING AND ALTERNATIVES.—In evaluating a project under paragraph (2)(A), the Sec-

retary shall analyze and consider the results of planning and alternatives analysis for the project.

''(4) PROJECT JUSTIFICATION.—For purposes of making the finding under paragraph (2)(B), the Secretary shall—

''(A) determine the degree to which the project is consistent with local land use policies and is likely to achieve local developmental goals;

''(B) determine the cost effectiveness of the project at the time of the initiation of revenue service;

''(C) determine the degree to which the project will have a positive effect on local economic development;

''(D) consider the reliability of the forecasts of costs and ridership associated with the project; and

''(E) consider other factors that the Secretary determines appropriate to carry out this subsection.

''(5) LOCAL FINANCIAL COMMITMENT.—For purposes of paragraph (2)(C), the Secretary shall require that each proposed local source of capital and

operating financing is stable, reliable, and available within the proposed project timetable.

''(6) ADVANCEMENT OF PROJECT TO DEVELOPMENT AND CONSTRUCTION.—

''(A) GENERAL RULE.—A proposed project under this subsection may advance from planning and alternatives analysis to project development and construction only if—

''(i) the Secretary finds that the project meets the requirements of this subsection and there is a reasonable likelihood that the project will continue to meet such requirements; and

''(ii) the metropolitan planning organization has adopted the locally preferred alternative for the project into the long-range transportation plan.

''(B) EVALUATION.—In making the findings under subparagraph (A), the Secretary shall evaluate and rate the project as 'recommended' or 'not recommended' based on the results of the analysis of the project justification criteria and the degree of local financial commitment, as required by this subsection.

''(7) CONTENTS OF PROJECT CONSTRUCTION GRANT AGREEMENT.—A project construction grant agreement under this subsection shall specify the scope of the project to be constructed, the estimated net project cost of the project, the schedule under which the project shall be constructed, the maximum amount of funding to be obtained under this subsection, the proposed schedule for obligation of future Federal grants, and the sources of funding from other than the Government. The agreement may include a commitment on the part of the Secretary to provide funding for the project in future fiscal years.

''(8) LIMITATION ON ENTRY INTO CONSTRUCTION GRANT AGREEMENT.—The Secretary may enter into a project construction grant agreement for a project under this subsection only if the project is authorized for construction and has been rated as 'recommended' under this subsection.

''(10) FIXED GUIDEWAY CAPITAL PROJECT.—In this subsection, the term 'fixed guideway capital project' includes a corridor-based public transportation bus capital project if the majority of the project's corridor right-of-way is dedicated alignment for exclusive use by public transportation vehicles for all or part of the day.

''(e) PREVIOUSLY ISSUED LETTER OF INTENT OR FULL FUNDING GRANT AGREEMENT.—Subsections (c) and (d) do not apply to projects for which the Secretary has issued a letter of intent or entered into a full funding grant agreement before the date of enactment of the Federal Public Transportation Act of 2005. ''(ii) STATEMENT OF CONTINGENT COMMITMENT.—The agreement shall state that the contingent commitment is not an obligation of the Government.

''(iii) INTEREST AND OTHER FINANCING COSTS.—Interest and other financing costs of efficiently carrying out a part of the project within a reasonable time are a cost of carrying out the project under a full funding grant agreement, except that

eligible costs may not be more than the cost of the most favorable financing terms reasonably available for the project at the time of borrowing. The applicant shall certify, in a way satisfactory to the Secretary, that the applicant has shown reasonable diligence in seeking the most favorable financing terms.

''(i) a full funding grant agreement for the project will be made; and

''(ii) the terms of the work agreement will promote ultimate completion of the project more rapidly and at less cost.

''(B) CONTENTS.—

''(i) IN GENERAL.—A work agreement under this paragraph obligates an amount of available budget authority specified in law and shall provide for reimbursement of preliminary costs of carrying out the project, including land acquisition, timely procurement of system elements for which specifications are decided, and other activities the Secretary decides are appropriate to make efficient, long-term project management easier.

''(ii) PERIOD COVERED.—A work agreement under this paragraph shall cover the period of time the Secretary considers appropriate. The period may extend beyond the period of current authorization.

''(iii) INTEREST AND OTHER FINANCING COSTS.—Interest and other financing costs of efficiently carrying out the work agreement within a reasonable time are a cost of carrying out the agreement, except

The applicant shall certify, in a way satisfactory to the Secretary, that the applicant has shown reasonable diligence in seeking the most favorable financing terms.

''(iv) FAILURE TO CARRY OUT PROJECT.—If an applicant does not carry out the project for reasons within the control of the applicant, the applicant shall repay all Government payments made under the work agreement plus reasonable interest and penalty charges the Secretary establishes in the agreement.

''(4) LIMITATION ON AMOUNTS.—

''(A) MAJOR CAPITAL INVESTMENT GRANTS CONTINGENT COMMITMENT AUTHORITY.—The total estimated amount of future obligations of the Government and contingent commitments to incur obligations covered by all outstanding letters of intent, full funding grant agreements, and early systems work agreements under this subsection for major new fixed

A refund or reduction of the remainder may be made only if a refund of a proportional amount of the grant of the Government is made at the same time.

''(5) LIMITATION ON APPLICABILITY.—This subsection does not apply to projects for which the Secretary has entered into a full funding grant agreement before the date of enactment of the Federal Public Transportation Act of 2005.

SEC. 5103. FINDINGS.

Congress finds the following:

(1) Research and development are critical to developing and maintaining a transportation system that meets the goals of safety, mobility, economic vi-

tality, efficiency, equity, and environmental protection.

(2) Federally sponsored surface transportation research and development has produced many successes. The development of rumble strips has increased safety; research on materials has increased the lifespan of pavements, saving money and reducing the disruption caused by construction; and Geographic Information Systems have improved the management and efficiency of transit fleets.

(3) Despite these important successes, the Federal surface transportation research and development investment represents less than one percent of overall government spending on surface transportation.

(4) While Congress increased funding for overall transportation programs by about 40 percent in the Transportation Equity Act for the 21st Century, funding for transportation research and development remained relatively flat.

(5) The Federal investment in research and development should be balanced between short-term applied and long-term fundamental research and development. The investment should also cover a wide range of research areas, including research on mate-

rials and construction, research on operations, research on transportation trends and human factors, and research addressing the institutional barriers to deployment of new technologies.

(6) Therefore, Congress finds that it is in the United States interest to increase the Federal investment in transportation research and development, and to conduct research in critical research gaps, in order to ensure that the transportation system meets the goals of safety, mobility, economic vitality, efficiency, equity, and environmental protection.

TITLE VII—HAZARDOUS MATERIALS TRANSPORTATION

SEC. 7002. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds with respect to hazardous materials transportation that—

(1) approximately 4,000,000,000 tons of regulated hazardous materials are transported each year and approximately 1,200,000 movements of hazardous materials occur each day, according to Department of Transportation estimates;

(2) the movement of hazardous materials in commerce is necessary to maintain economic vitality

and meet consumer demands and must be conducted in a safe and efficient manner;

(3) accidents involving, or unauthorized access to, hazardous materials in transportation may result in a release of such materials and pose a serious threat to public health and safety;

(4) many States and localities have enacted laws and regulations that vary from Federal laws and regulations pertaining to the transportation of hazardous materials, thereby creating the potential for unreasonable hazards in other jurisdictions and confounding shippers and carriers that attempt to comply with multiple regulatory requirements;

(5) because of the potential risks to life, property, and the environment posed by unintentional releases of hazardous materials, consistency in laws and regulations governing the transportation of hazardous materials is necessary and desirable;

(6) in order to achieve greater uniformity and to promote the public health, welfare, and safety at all levels, Federal standards for regulating the transportation of hazardous materials in intrastate, interstate, and foreign commerce are necessary and desirable; and

(7) in order to provide reasonable, adequate, and cost-effective protection from the risks posed by the transportation of hazardous materials, a network of well-trained State and local emergency response personnel and hazmat employees is essential.

(b) PURPOSE.—The text of section 5101 is amended to read as follows: ''The purpose of this chapter is to protect against the risks to life, property, and the environment that are inherent in the transportation of hazardous material in intrastate, interstate, and foreign commerce.''.
