109TH CONGRESS
2^D SESSION

H. R. 5232

[Report No. 109-547]

To direct the Secretary of the Interior to initiate and complete an evaluation of lands and waters located in Northeastern Pennsylvania for their potential acquisition and inclusion in a future Cherry Valley National Wildlife Refuge, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

APRIL 27, 2006

Mr. KANJORSKI introduced the following bill; which was referred to the Committee on Resources

JULY 10, 2006

Additional sponsors: Mr. DENT, Mr. GERLACH, Mr. HOLDEN, and Ms. SCHWARTZ of Pennsylvania

JULY 10, 2006

Committed to the Committee of the Whole House on the State of the Union and ordered to be printed

A BILL

To direct the Secretary of the Interior to initiate and complete an evaluation of lands and waters located in Northeastern Pennsylvania for their potential acquisition and inclusion in a future Cherry Valley National Wildlife Refuge, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Cherry Valley National
5 Wildlife Refuge Study Act”.

6 **SEC. 2. FINDINGS.**

7 The Congress finds the following:

8 (1) The scenic Cherry Valley area of North-
9 eastern Pennsylvania is blessed with more than 80
10 special-concern animal and plant species and natural
11 habitats.

12 (2) In a preliminary assessment of Cherry Val-
13 ley, United States Fish and Wildlife Service biolo-
14 gists ranked Cherry Valley very high as a potential
15 national wildlife refuge.

16 (3) Six species that are listed as endangered
17 species or threatened species under the Endangered
18 Species Act of 1973 (16 U.S.C. 1531 et seq.) have
19 been documented within or near Cherry Valley: The
20 bog turtle (possibly the most significant population
21 of the listed subspecies), the dwarf wedge mussel,
22 the northeastern bulrush, the small whorled pogonia,
23 the bald eagle, and the Indiana bat (a historic resi-
24 dent, with efforts under way to re-establish favorable
25 conditions).

1 (4) Cherry Valley provides habitat for at least
2 79 species of national or regional concern, which ei-
3 ther nest in Cherry Valley or migrate through the
4 area during critical times in their life cycle, includ-
5 ing—

6 (A) neo-tropical migratory birds such as
7 the Cerulean Warbler, the Worm-eating War-
8 bler, and the Wood Thrush, all of which nest in
9 Cherry Valley;

10 (B) waterfowl such as the American Black
11 Duck;

12 (C) several globally rare plants, such as
13 the spreading globeflower; and

14 (D) anadromous fish species.

15 (5) The Cherry Valley watershed encompasses a
16 large segment of the Kittatinny Ridge, an important
17 migration route for birds of prey throughout the
18 Northeastern United States. Every migratory raptor
19 species in the Northeast is regularly observed along
20 the Kittatinny Ridge during the autumnal migra-
21 tion, including the bald eagle, the golden eagle, and
22 the broad-winged hawk.

23 (6) The Kittatinny Ridge also includes a long
24 segment of the Appalachian Trail, a nationally sig-
25 nificant natural-cultural-recreational feature.

1 (7) Many of the significant wildlife habitats
2 found in the Cherry Valley, especially the rare cal-
3 careous wetlands, have disappeared from other local-
4 ities in their range.

5 (8) Ongoing studies have documented the high
6 water quality of Cherry Creek.

7 (9) Public meetings over several years have
8 demonstrated strong, deep, and growing local sup-
9 port for a Cherry Valley National Wildlife Refuge,
10 as demonstrated by the following:

11 (A) Area landowners, business and commu-
12 nity leaders, media, and elected officials have
13 consistently voiced their enthusiasm for a Cher-
14 ry Valley National Wildlife Refuge.

15 (B) Numerous local communities and pub-
16 lic and private conservation entities share com-
17plementary goals for protecting Cherry Valley
18 and are energetically conserving wildlife habitat
19 and farmland. Along with State land-manage-
20ment agencies and the National Park Service,
21 these local entities represent potential strong
22 partners for the United States Fish and Wild-
23 life Service, and view a Cherry Valley National
24 Wildlife Refuge as a complement to existing
25 private, county, municipal, and State efforts.

1 (C) A number of local landowners have al-
2 ready put their land into conservation ease-
3 ments or other conservation arrangements.

4 (D) A voter-approved Monroe County Open
5 Space Fund and a voter-approved Stroud
6 Township municipal land conservation fund
7 have contributed to many of these projects.

8 (10) Two federally owned parcels of land are
9 contiguous to the area to be studied under this Act
10 as for acquisition and inclusion in a future Cherry
11 Valley National Wildlife Refuge: The Delaware
12 Water Gap National Recreation Area and a 700-acre
13 segment of the Appalachian Trail owned by the Na-
14 tional Park Service.

15 **SEC. 3. STUDY OF REFUGE POTENTIAL AND FUTURE REF-**
16 **UGE LAND ACQUISITION.**

17 (a) STUDY.—The Secretary shall initiate within 30
18 days after the date of the enactment of this Act a study
19 to evaluate the fish and wildlife habitat and aquatic and
20 terrestrial communities located in Northeastern Pennsyl-
21 vania and identified on the map entitled, “Proposed Cher-
22 ry Valley National Wildlife Refuge—Authorization Bound-
23 ary”, dated February 24, 2005, for their potential acquisi-
24 tion by the United States Fish and Wildlife Service
25 through donation, exchange, or willing seller purchase and

1 subsequent inclusion in a future Cherry Valley National
2 Wildlife Refuge.

3 (b) CONSULTATION.—The Secretary, while con-
4 ducting the study required under this section, shall consult
5 appropriate State and local officials, private conservation
6 organizations, major landowners and other interested per-
7 sons, regarding the identification of eligible lands, waters,
8 and interests therein that are appropriate for acquisition
9 for a national wildlife refuge and the determination of
10 boundaries within which such acquisitions should be made.

11 (c) COMPONENTS OF STUDY.—As part of the study
12 under this section the Secretary shall do the following:

13 (1) Determine if the fish and wildlife habitat
14 and aquatic and terrestrial communities to be evalu-
15 ated are suitable for inclusion in the National Wild-
16 life Refuge System and management under the poli-
17 cies of the National Wildlife Refuge System Admin-
18 istration Act of 1966 (16 U.S.C. 668dd et seq.).

19 (2) Assess the conservation benefits to be
20 gained from the establishment of a Cherry Valley
21 National Wildlife Refuge including—

22 (A) preservation and maintenance of di-
23 verse populations of fish, wildlife, and plants,
24 including species listed as threatened species or
25 endangered species;

1 (B) protection and enhancement of aquatic
2 and wetland habitats;

3 (C) opportunities for compatible wildlife-
4 dependent recreation, scientific research, and
5 environmental education and interpretation;
6 and

7 (D) fulfillment of international obligations
8 of the United States with respect to fish, wild-
9 life, and their habitats.

10 (3) Provide an opportunity for public participa-
11 tion and give special consideration to views ex-
12 pressed by local public and private entities regarding
13 lands, waters, and interests therein for potential fu-
14 ture acquisition for refuge purposes.

15 (4) The total area of lands, water, and interests
16 therein that may be acquired shall not in the aggre-
17 gate exceed 30,000 acres.

18 (d) REPORT.—The Secretary shall, within 12 months
19 after date of the enactment of this Act, complete the study
20 required by this section and submit a report containing
21 the results thereof to the Committee on Resources of the
22 House of Representatives and the Committee on Environ-
23 ment and Public Works of the Senate. The report shall
24 include—

1 (1) a map that identifies and prioritizes specific
2 lands, waters, and interests therein for future acqui-
3 sition, and that delineates an acquisition boundary,
4 for a potential Cherry Valley National Wildlife Ref-
5 uge;

6 (2) a cost estimate for the acquisition of all
7 lands, waters, and interests therein that are appro-
8 priate for refuge status; and

9 (3) an estimate of potentially available acquisi-
10 tion and management funds from non-Federal
11 sources.

12 (e) AUTHORIZATION OF APPROPRIATIONS.—There is
13 authorized to be appropriated to the Secretary \$200,000
14 to carry out the study.

15 **SEC. 4. DEFINITIONS.**

16 In this Act the term “Secretary” means the Secretary
17 of the Interior acting through the Director of the United
18 States Fish and Wildlife Service.
