22 Explosives shall include in all such data releases, language
23 similar to the following that would make clear that trace
24 data cannot be used to draw broad conclusions about fire-
25 arms-related crime:

1 (1) Firearm traces are designed to assist law
2 enforcement authorities in conducting investigations
3 by tracking the sale and possession of specific fire-
4 arms. Law enforcement agencies may request fire-
5 arms traces for any reason, and those reasons are
6 not necessarily reported to the Federal Government.
7 Not all firearms used in crime are traced and not all
8 firearms traced are used in crime.

9 (2) Firearms selected for tracing are not chosen
10 for purposes of determining which types, makes or
11 models of firearms are used for illicit purposes. The
12 firearms selected do not constitute a random sample
13 and should not be considered representative of the
14 larger universe of all firearms used by criminals, or
15 any subset of that universe. Firearms are normally
16 traced to the first retail seller, and sources reported
17 for firearms traced do not necessarily represent the
18 sources or methods by which firearms in general are
19 acquired for use in crime.
