Recognizing the contributions of the Christmas tree industry
to the United States economy.

Whereas Christmas trees have been sold commercially in the
United States since the 1850s;

Whereas, by 1900, one in five American families decorated a
tree during the Christmas season, while, by

Whereas Oregon, North Carolina, Michigan, Washington, Wisconsin, Pennsylvania, New York, Minnesota, Virginia, California, and Ohio are the top producers of live-cut Christmas trees, but Christmas trees are grown in all 50 States;

Whereas there are more than 21,000 growers of Christmas trees in the United States, and approximately 100,000 people are employed in the live-cut Christmas tree industry;

Whereas many Christmas tree growers grow trees on a part-time basis to supplement their other farm and non-farm income;

Whereas growing Christmas trees provides wildlife habitat;

Whereas, in 2005, Christmas trees were planted on more than a half million acres of land;
