

103<sup>D</sup> CONGRESS  
1<sup>ST</sup> SESSION

# H. J. RES. 265

To designate October 19, 1993, as “National Mammography Day”.

---

IN THE HOUSE OF REPRESENTATIVES

SEPTEMBER 23, 1993

Mrs. LLOYD introduced the following joint resolution; which was referred to the Committee on Post Office and Civil Service

---

## **JOINT RESOLUTION**

To designate October 19, 1993, as “National Mammography Day”.

Whereas, according to the American Cancer Society, one hundred eighty-two thousand women will be diagnosed with breast cancer in 1993, and forty-six thousand women will die from this disease;

Whereas, in the decade of the 1990’s, it is estimated that about two million women will be diagnosed with breast cancer, resulting in nearly five hundred thousand deaths;

Whereas the risk of breast cancer increases with age, with a woman at age seventy having twice as much of a chance of developing the disease than a woman at age fifty;

Whereas 80 percent of women who get breast cancer have no family history of the disease;

Whereas mammograms, when operated professionally at an accredited facility, can provide a safe and quick diagnosis;

Whereas experts agree that mammography is the best method of early detection of breast cancer, and early detection is the key to saving lives; and

Whereas mammograms can reveal the presence of small cancers up to two years before regular clinical breast examinations or breast self-examinations (BSE), saving as many as a third more lives: Now, therefore be it

1       *Resolved by the Senate and House of Representatives*  
2       *of the United States of America in Congress assembled,*  
3       That October 19, 1993, be designated as “National Mam-  
4       mography Day”, and the President is authorized and re-  
5       quested to issue a proclamation calling upon the people  
6       of the United States to observe such day with appropriate  
7       programs and activities.
