

105TH CONGRESS  
2D SESSION

# H. CON. RES. 342

Expressing the sense of the Congress that the United States should impose sanctions under the Arms Export Control Act and the Iran-Iraq Arms Non-Proliferation Act of 1992 with respect to the acquisition by Iran of advanced missile technology from other countries and should take steps to expedite the development of a missile defense system for the United States and for United States forces wherever deployed to deal with the Iranian missile threat, and should assist Israel in the acquisition of a missile defense system capable of defending all Israeli territory against Iranian missile attack.

---

## IN THE HOUSE OF REPRESENTATIVES

OCTOBER 8, 1998

Mr. DELAY (for himself, Mr. ROHRBACHER, Mr. HEFLEY, Mr. WELDON of Pennsylvania, Mr. FORBES, Mr. BACHUS, Mr. ADERHOLT, Mr. GIBBONS, Mr. TALENT, Mr. SESSIONS, Mr. WATTS of Oklahoma, Mr. MILLER of Florida, Mr. HAYWORTH, and Mr. CRANE) submitted the following concurrent resolution; which was referred to the Committee on International Relations, and in addition to the Committee on National Security, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

---

## CONCURRENT RESOLUTION

Expressing the sense of the Congress that the United States should impose sanctions under the Arms Export Control Act and the Iran-Iraq Arms Non-Proliferation Act of 1992 with respect to the acquisition by Iran of advanced missile technology from other countries and should take steps to expedite the development of a missile defense system for the United States and for United States

forces wherever deployed to deal with the Iranian missile threat, and should assist Israel in the acquisition of a missile defense system capable of defending all Israeli territory against Iranian missile attack.

Whereas for several years Iran has possessed Scud missiles capable of threatening its immediate neighbors;

Whereas Iran has several programs to develop longer-range missiles and has received assistance and material to modernize and improve those programs from Russia, North Korea, and other foreign countries, including the sale of SS-4 missile components, the construction of a wind tunnel for missile design, the manufacture of missile models, the sale of missile design software, and the sale of missile guidance and propulsion components with the necessary advice and equipment to produce these components in Iran;

Whereas the New York Times reported early in 1998, that a shipment of 22 tons of specialty steel used in making fuel tanks for Scud missiles was intercepted by custom officials in Azerbaijan en route to Iran;

Whereas intelligence estimates indicate that Iran could complete development in as little as a year of the Shahab-3 missile with a range of 800 miles that could target Israel and American forces in the region;

Whereas intelligence estimates also indicate that Iran could complete development within 3 years of the Shahab-4 missile with a range of over 1,200 miles that could target Central Europe; and

Whereas on June 23 of this year the President vetoed the Iran Missile Sanctions Act which would have placed sanctions on any organization that has provided any form of

assistance to Iran's missile program: Now, therefore, be it

1       *Resolved by the House of Representatives (the Senate*  
2 *concurring)*, That the President should—

3           (1) impose sanctions under the Arms Export  
4       Control Act and the Iran-Iraq Arms Non-Prolifera-  
5       tion Act of 1992, to the fullest possible extent, in-  
6       cluding, when applicable, the freezing of assets and  
7       seizing of property in the United States of those en-  
8       tities involved in illegal transactions with Iran;

9           (2) take steps to expedite the development of a  
10       missile defense system for the United States and for  
11       United States forces wherever deployed to deal with  
12       the Iranian threat, including accelerating develop-  
13       ment of the Navy Upper Tier program and improv-  
14       ing the integration of the Patriot, AEGIS, and  
15       THAAD missile radar systems; and

16           (3) provide assistance to Israel to acquire a  
17       third Arrow missile battery to ensure that all of  
18       Israel would be protected by a missile defense sys-  
19       tem against the Iranian missile threat.
