1ST Session

H. CON. RES. 8

[Report No. 105-94]

CONCURRENT RESOLUTION

Recognizing the significance of maintaining the health and stability of coral reef ecosystems.

SEPTEMBER 30, 1997

Reported with an amendment and an amendment to the preamble

Calendar No. 186105TH CONGRESS
1ST SESSION**H. CON. RES. 8****[Report No. 105-94]**

IN THE SENATE OF THE UNITED STATES

APRIL 24, 1997

Received

MAY 13, 1997

Referred to the Committee on Commerce, Science, and Transportation

SEPTEMBER 30, 1997

Reported by Mr. MCCAIN, with an amendment and an amendment to the
preamble[Omit the part struck through and insert the part printed in *italic*]

CONCURRENT RESOLUTION

Recognizing the significance of maintaining the health and
stability of coral reef ecosystems.

~~Whereas coral reefs are among the world's most biologically
diverse and productive marine habitats; and are often de-
scribed as the tropical rain forests of the oceans;~~

~~Whereas healthy coral reefs provide the basis for subsistence,
commercial fisheries; and coastal and marine tourism and
are of vital economic importance to coastal States and
territories of the United States including Florida, Ha-~~

waii, Georgia, Texas, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands;

Whereas healthy coral reefs function as natural, regenerating coastal barriers, protecting shorelines and coastal areas from high waves, storm surges, and accompanying losses of human life and property;

Whereas the scientific community has long established that coral reefs are subject to a wide range of natural and anthropogenic threats;

Whereas the United States has taken measures to protect national coral reef resources through the designation and management of several marine protected areas, containing reefs of the Flower Garden Banks in the Gulf of Mexico, the Florida Keys in south Florida, and offshore Hawaii, Puerto Rico, the Virgin Islands, and American Samoa;

Whereas the United States, acting through its agencies, has established itself as a global leader in coral reef stewardship by launching the International Coral Reef Initiative and by maintaining professional networks for the purposes of sharing knowledge and information on coral reefs, furnishing near real-time data collected at coral reef sites, providing a repository for historical data relating to coral reefs, and making substantial contributions to the general fund of coral reef knowledge; and

Whereas 1997 has been declared the “International Year of the Reef”² by the coral reef research community and over 40 national and international scientific, conservation, and academic organizations: Now, therefore, be it

Whereas coral reefs are among the world's most biologically diverse and productive marine habitats, and are often described as the tropical rain forest of the oceans;

Whereas healthy coral reefs provide the basis for subsistence, commercial fisheries, and coastal and marine tourism and are of vital economic importance to coastal States and territories of the United States including Florida, Hawaii, Georgia, Texas, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands;

Whereas healthy coral reefs function as natural, regenerating coastal barriers, protecting shorelines and coastal areas from high waves, storm surges, and accompanying losses of human life and property;

Whereas the scientific community has long established that coral reefs are subject to a wide range of natural and anthropogenic threats;

Whereas a wide variety of destructive fishing practices, including the use of cyanide, other poisons, surfactants, and explosives, are contributing to the global decline of coral reef ecosystems;

Whereas the United States has taken measures to protect national coral reef resources through the designation and management of several marine protected areas, containing reefs of the Flower Garden Banks in the Gulf of Mexico, the Florida Keys in south Florida, and offshore Hawaii, Puerto Rico, the Virgin Islands, and American Samoa;

Whereas the United States, acting through its agencies, has established itself as a global leader in coral reef stew-

ardship by launching the International Coral Reef Initiative and by maintaining professional networks for the purposes of sharing knowledge and information on coral reefs, furnishing near real-time data collected at coral reef sites, providing a repository for historical data relating to coral reefs, and making substantial contributions to the general fund of coral reef knowledge; and

Whereas 1997 has been declared the “International Year of the Reef” by the coral reef research community and over 40 national and international scientific, conservation, and academic organizations: Now, therefore, be it

1 *Resolved by the House of Representatives (the Senate*
2 *concurring),*

3 That the Congress recognizes the significance of
4 maintaining the health and stability of coral reef
5 ecosystems, by—

6 (1) promoting comprehensive stewardship for
7 coral reef ecosystems;

8 (2) encouraging research, monitoring, and as-
9 sessment of and education on coral reef ecosystems;
10 and

11 (3) improving the coordination of coral reef ef-
12 forts and activities of Federal agencies, academic in-
13 stitutions, nongovernmental organizations, and in-
14 dustry.

1 *That the Congress recognizes the significance of maintain-*
2 *ing the health and stability of coral reef ecosystems, by—*

3 (1) *promoting comprehensive stewardship for*
4 *coral reef ecosystems;*

5 (2) *discouraging unsustainable fisheries or other*
6 *practices that are harmful to coral reefs and human*
7 *health;*

8 (3) *encouraging research, monitoring, and as-*
9 *essment of and education on coral reef ecosystems;*

10 (4) *improving the coordination of coral reef ef-*
11 *forts and activities of Federal agencies, academic in-*
12 *stitutions, nongovernmental organizations, and indus-*
13 *try; and*

14 (5) *promoting preservation and sustainable use*
15 *of coral reef resources worldwide.*
