

105TH CONGRESS
2^D SESSION

H. R. 3555

To direct the Secretary of Transportation to conduct an assessment of available technologies for establishing a system to access information regarding the motor vehicle driving records of all motor vehicle operators in the United States.

IN THE HOUSE OF REPRESENTATIVES

MARCH 25, 1998

Mr. MORAN of Virginia (for himself, Mrs. MORELLA, Mr. WYNN, Ms. LOFGREN, Mr. WAXMAN, Mr. LAMPSON, and Mrs. LOWEY) introduced the following bill; which was referred to the Committee on Transportation and Infrastructure

A BILL

To direct the Secretary of Transportation to conduct an assessment of available technologies for establishing a system to access information regarding the motor vehicle driving records of all motor vehicle operators in the United States.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Driver Record Infor-
5 mation Verification System Act”.

1 **SEC. 2. FINDINGS.**

2 Congress finds that—

3 (1) State statutory, regulatory, and adjudica-
4 tory procedures make it very difficult for States to
5 send, receive, and maintain driver conviction infor-
6 mation in a manner that is nationally consistent and
7 uniform;

8 (2) problem drivers can and do avoid detection
9 and corrective action;

10 (3) the federally established commercial driver
11 license information system and the national driver
12 register problem driver pointer system affect only a
13 small portion of the total driving population;

14 (4) the commercial driver license information
15 system does not prevent a commercial driver from
16 having multiple noncommercial licenses and the
17 problem driver pointer system encourages the disper-
18 sal of a person's driving record across multiple juris-
19 dictions;

20 (5) most States do not have the infrastructure
21 to track citations electronically or in a timely man-
22 ual fashion through the court system to the driver
23 licensing agency;

24 (6) a high percentage of citations and convic-
25 tions are never posted or recorded on a driver's
26 record, making it difficult for law enforcement, judi-

1 cial, and administrative agencies to obtain an indi-
2 vidual's complete driving history and impairing the
3 ability of the agencies to identify and control prob-
4 lem drivers; and

5 (7) Congress should facilitate the creation of a
6 new database on driver license history that will af-
7 ford law enforcement, judicial, and administrative
8 agencies with a more effective tool to improve high-
9 way safety by providing for the instant retrieval of
10 a driver's complete driving history and minimizing
11 the potential for a driver to obtain multiple valid
12 driver licenses.

13 **SEC. 3. TECHNOLOGY ASSESSMENT.**

14 (a) **IN GENERAL.**—The Secretary of Transportation,
15 in conjunction with the American Association of Motor Ve-
16 hicle Administrators, shall conduct an assessment of avail-
17 able technologies to determine the most feasible and eco-
18 nomical means of establishing a system to access informa-
19 tion regarding the motor vehicle driving record of each
20 motor vehicle operator in the United States.

21 (b) **REQUIREMENTS.**—With respect to each tech-
22 nology assessed under subsection (a), the Secretary shall
23 make the following determinations:

1 (1) Whether information from the system can
2 be accessed quickly, in accordance with the needs of
3 the States.

4 (2) Whether a motor vehicle operator can be ac-
5 curately identified on each access of the system.

6 (3) Whether the system can withstand the vol-
7 ume of inquiries that would result from full imple-
8 mentation of the system.

9 (4) The costs to States and the Federal Gov-
10 ernment of implementing, operating, and maintain-
11 ing the system.

12 (5) Impacts, other than costs, on States and
13 the Federal Government.

14 (c) ASSESSMENT OF USE OF SOCIAL SECURITY NUM-
15 BERS.—The Secretary, in consultation with the Commis-
16 sioner of Social Security, shall assess the usefulness and
17 cost-effectiveness of using the social security account num-
18 bers as the basis for identification of motor vehicle opera-
19 tors within the system.

20 (d) STATE PARTICIPATION.—The Secretary shall ob-
21 tain the motor vehicle driving records necessary for carry-
22 ing out the assessment from States that agree to partici-
23 pate in the assessment. The Secretary may use amounts
24 appropriated to carry out this section to reimburse States
25 for costs associated with such participation.

1 (e) REPORT TO CONGRESS.—Not later than 2 years
2 after the date of the enactment of this Act, the Secretary
3 shall transmit to Congress a report containing the results
4 of the assessment, together with recommendations for ap-
5 propriate administrative and legislative actions. The re-
6 port shall include an estimate of Federal and State costs
7 of operating the database, as well as a description of other
8 impacts of system implementation.

9 (f) AUTHORIZATION OF APPROPRIATIONS.—There is
10 authorized to be appropriated to carry out this section
11 \$5,000,000 for fiscal years beginning after September 30,
12 1998.
