RESOLUTION

To express the sense of the House of Representatives that the Federal investment in programs that provide health care services to uninsured and low-income individuals in medically underserved areas be increased in order to double access to care over the next 5 years.

Whereas the uninsured population in the United States is approximately 43,000,000 and is estimated to reach over 53,000,000 people by 2007;

Whereas nearly 80 percent of the uninsured population are members of working families who cannot afford health insurance or cannot access employer-provided health insurance plans;

Whereas minority populations, rural residents, and single-parent families represent a disproportionate number of the uninsured population;

Whereas the problem of health care access for the uninsured population is compounded in many urban and rural communities by a lack of providers who are available to serve both insured and uninsured populations;

Whereas community, migrant, homeless, and public housing health centers have proven uniquely qualified to address the lack of adequate health care services for uninsured populations, serving over 4,900,000 uninsured patients in 2000, including over 1,000,000 new uninsured patients who have sought care from such centers in the last 3 years;

Whereas health centers care for about 12,000,000 patients, including nearly 8,000,000 minorities, nearly 650,000 farmworkers, and almost 600,000 homeless individuals each year;

Whereas health centers provide cost-effective comprehensive primary and preventive care to uninsured individuals for less than \$1.00 per day, or \$350 annually, and help to reduce the inappropriate use of costly emergency rooms and inpatient hospital care;

Whereas current resources only allow health centers to serve more than 10 percent of the Nation's 43,000,000 uninsured individuals;

Whereas past investments to increase health center access have resulted in better health, an improved quality of life for all Americans, and a reduction in national health care expenditures;

Whereas Congress can act now to increase access to health care services for uninsured and low-income people together with or in advance of health care coverage proposals by expanding the availability of services at community, migrant, homeless, and public housing health centers; and

Whereas the President has proposed to double the number of people served by health centers: Now, therefore, be it

4 Expand Access to Community Health Centers (REACH)
5 Initiative".

6 **SEC. 2. SENSE OF THE HOUSE OF REPRESENTATIVES.**

7 It is the sense of the House of Representatives that
8 appropriations for consolidated health centers under sec-
9 tion 330 of the Public Health Service Act (42 U.S.C.
10 254b) should be increased by 100 percent over 5 fiscal
11 years, ending in 2006, in order to double the number of

- 1 individuals who receive health care services at community,
- 2 migrant, homeless, and public housing health centers.
