Whereas the first Rail Safety Week was held from September 24 through September 30, 2017, by the national education safety nonprofit Operation Lifesaver, the Department of Transportation, and other organizations;

and to highlight efforts to further reduce incidents, injuries, and fatalities;

Whereas highway-rail grade crossing and trespassing incidents constituted approximately 95 percent of all rail-related fatalities during 2021;

(1) the number of public highway-rail grade crossings has decreased by 13 percent; and

(2) the number of gates at such crossings has increased by 39 percent;

Whereas, in 2021, 48 percent of all highway-rail grade crossing incidents and 68 percent of all fatal highway-rail grade crossing incidents occurred at gated highway-rail grade crossings;

Whereas preliminary Federal statistics indicate that 2,145 highway-grade crossing incidents occurred in the United States in 2021, resulting in 235 deaths and another 669 individuals injured;

Whereas many incidents between trains and motor vehicles or pedestrians could have been prevented by increased education, engineering, and enforcement;

Whereas Operation Lifesaver, the foremost public information and education program on rail safety, administers a public education program about grade-crossing safety and trespassing prevention;

Whereas, during Rail Safety Week, from September 19 through 25, and throughout the year, everyone is encouraged to take added caution as motorists or pedestrians approach tracks or trains;
