17. Remarks (by SAC):

It is noted that this source has not been overly productive during the last 90 day period; however, the Chicago Division made re-entry within that period and relocated a second "mite" unit in the front portion of the Armory Lounge which it is felt will be more productive in the future. However, due to lack of sufficient time and security purposes, the completion of this installation was not accomplished. It is felt that this location is still the number one location for GIANCANA's headquarters and the Chicago Division is doing its utmost to complete relocation of source. In view of above, it is recommended that this source be continued for an additional 90 days UACB. (u)
